Progress report
Center of Excellance in Big Data Engineering
June 2017

</div>

Abstract

The idea of Co-creation of Center of Excellance in Big Data Engineering was initiated between IIIT Bangalore and City University, United Kingdom. The set of activities as a part of the intiative are co-creation of academic curricula in Big Data Engineering, conduct a workshop for tier 2,tier 3 institutions in India and involve representatives from City College in the workshop, create a course curriculum and teach in respective institutions and support specific research projects in Big Data. The progress is presented in this report. The set of tasks to be performed is also listed below.

1 Progress

1. The COE in Big Data programme is called "Big Data Labs"

2. One projects has been added to this programme.

3. It is called Web Observatory. A Web Observatory is a global data resource for the advancement of economic and social prosperity that is hosted by the Web Sciences Trust.

4. Raksha P S, a research scholar is working on the Web Observatory project.

5. Anish is assisting Raksha in the Web Observatory project

6. Siemens Research, Bengaluru is no longer the Industry collaborator for the project.

7. There are few labs that have shown interest in joining the project as the Industry collaborator

2 Tasks to be performed

1. Planning to add more research projects to promote Big Data application.

2. Looking for new collaborators from the industry and academia to create a Center of Excellence in Big Data.
